

Electronic Data Interchange (EDI)

DGFT has put in place a robust EDI system for the purpose of export facilitation and good governance. DGFT has set up a secured EDI message exchange system for various documentation related activities including import and export Authorisations established with other administrative departments, namely, Customs, Banks and EPCs. This has reduced the physical interface of exporters and importers with the Government Departments and is a significant measure in the direction of reduction of transaction cost. The endeavour of DGFT has been to enlarge the scope of EDI to achieve higher level of integration with partner departments.
